Prime Web: Interactive Mobile App Order

Full Name & Surname: _____

Business Name: _____

Postal Address: _____

Contact number: _____ Email address: _____

I hereby agree to purchase an **Interactive Mobile App** that Prime Web Space will design in using the information and images supplied by me (our business) or as can be obtained from our current business website being:

I understand that the information and images determine the quality of my App and I understand that if the information and/or images provided are lacking and/or of poor quality, then my App will be similar in nature. Prime Web Online does not portray to be graphic designers and/or content providers, but that we can produce a perfectly functioning App as to the functionality agreed upon. If I do not have a website, I will provide the images and content as may be required.

I further agree and understand that my allocated staff members will receive training on how to use, update and create and update content on the App by logging in to my dedicated cloud-based console. I/my allocated staff members will be responsible for updating the App contents, creating content and to effect changes as well as to manage the App by using the "Push Notification" feature, Events Calendar, form submissions etc.

I understand that designing, building, and implementing my App is a process and that the following steps are envisaged:

- Initial basic design of the App - up to 1 week
- Client feedback on the initial design, further customization to satisfy client and agreement is reached that the design (menu layout, pages, images and content) is finalised and that the correct pages and functions have been added - depends on feedback received from client.
- Implementation and activation of the interactive plug-ins (COVID-19 Visit Log, discount module, loyalty program, contact form or booking feature and order to console/email), testing of this and setting up the client portal - 2 to 3 days.

- Handover of QR Code, pamphlet and APK file to client and training on how to use - 1 day.

At handover, the Debit order will then be placed to run from the following calendar month (if within 1 week from month-end, it will be moved to the month thereafter).

I therefore order the following App according to my services and/or products to be listed or the complexity thereof **at the discounted Special Launch Offer price:**

- ___ **Interactive Mobile Business App:** ~~\$800~~ **\$400** once-off plus Interactive Portal Access (below); **or**
